DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 11-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The group of elements that make up I, III and VI need to be recited in the claim, because it appears that the I, III and VI may be elements from those groups in the periodic chart.

Additionally, the claims do not recite the electrolysis bath comprising the elements from I or VI, it only recites the element III in the electrolysis bath. It is unclear how a thin film from just element III in solution can produce the alloy of I-III-IV as recited in the claims.

Allowable Subject Matter

Claims 11-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: none of the references of record disclose the deposition of a thin film having the disclosed elements (in the specification) using the surfactant as recited in the claims.
